Business Summary:

Unique Business Opportunity, This business will not last long. One of the few Real Estate sign companies in CT. This company installs the sign posts for Realtors, landlords, and individuals. They install the post for a fee and remove them when the listing is terminated. Realtors, landlords, and individuals supply the sign and this business supplies and owns the posts. Orders come in daily via internet, fax or phone messages to install or remove sign posts. There is a big opportunity to expand this business as it has a somewhat limited customer geography currently. A new owner could easily automate the front end (order processing) of this business and spend more time servicing new customers, installing signs etc. This is a very profitable and high margin business. The company owns an extensive inventory of sign posts so the cost of goods is very low. General Information Facilities: This business is located in warehouse space with very low rent but can be located anywhere.
